Nigeria EcoDrive Conference & Expo '26

Accelerating the Future of Green Mobility with EV and CNG Innovation

17th – 20th November 2026

Prince Adetokunbo Kayode SAN Trade and Convention Centre,
KM 8, Airport Road, Lugbe, Abuja

SPONSORSHIP & EXHIBITION PACKAGE

BACKGROUND

Nigeria is at a critical juncture in its transition to sustainable mobility. The government's Energy Transition Plan targets 13 million electric vehicles (EVs) by 2050 (60% of the national fleet) and 60 EV charging stations in the same period. The National Automotive Industry Development Plan (NAIDP) 2023 aims for 30% local EV production by 2033. Recent fuel price volatility, subsidy removal, and persistent inflation have made EVs and CNG vehicles highly attractive due to 50-70% lower running costs, zero tailpipe emissions, and greater resilience to oil price shocks.

Despite policy momentum, EV adoption remains low (estimated 15,000-20,000 EVs on Nigerian roads as of early 2026, representing 0.5-1% of the fleet). Key barriers include limited public awareness, misconceptions about range anxiety, battery technology, upfront costs, and infrastructure availability. Public charging stations are still fewer than 100 nationwide, mostly in major cities.

The EcoDrive 2026 initiative, led by the National Policy Advocacy Centre (NPAC) in partnership with the National Automotive Design and Development Council (NADDC), Energy Commission of Nigeria (ECN), Clean Technology Hub and Electric Mobility Promoters Association of Nigeria (EMPAN), will combine a "high-visibility Driving the Future EV Roadshow", with a comprehensive 5-day EcoDrive Expo & Trade Fair. This integrated programme will demystify green mobility, showcase innovations in EVs and CNG, engage stakeholders, and drive both public adoption and policy support.

SPONSORSHIP PACKAGES

To ensure commercial sustainability, the following tiers are offered:

Headline Sponsor

10,000,000

- Co-Headlinemnaming rights
- Prime exhibition space (7ft by 7ft),
- Keynote speaking slot
- Logo on all event collateral,

Gold Sponsor

5,000,000

- Panel speaking opportunity,
- Exhibition space (7ft by 7ft),
- Logo on stage backdrop and event programm

Silver Sponsor

2,500,000

- One social media feature post,
- Exhibition space (7ft by 7ft),
- Logo on event signage and website

Supporting Partner

2,000,000

- Listing as Official Supporting Partner
- Acknowledgement at the opening and closing ceremoniest
- Logo on placement on event programme and event signage

Exhibition Booth Only

500,000

- Access to all open networking sessions,
- Exhibition space (7ft by 7ft),
- Listing in the event exhibitor directory

EVENT DETAILS

EcoDrive 2026:

Accelerating the Future of Green Mobility with EV & CNG Innovation

Date:

17th – 20th November 2026

Venue:

Abuja Chamber of Commerce & Industry (ACCI) Conference Centre

Target Audience:

Policymakers, automakers, dealers, transport operators, energy companies, academics, students, private EV owners, and the general public

KEY ACTIVITIES

Exhibition Booths:
EVs, CNG vehicles, charging solutions, retrofitting kits, and components.

Test Drives & Demonstrations:
Hands-on experience with 2-, 3-, and 4-wheelers

Panel Discussions & Workshops:
Policy, financing, infrastructure, maintenance, and green jobs.

Social Media Campaign:
Month-long digital amplification (infographics, user stories, myth-busting, progress updates).

Networking & Partnerships:
B2B/B2G matchmaking.
